Stock Broker Programming

2tier vs 3tier

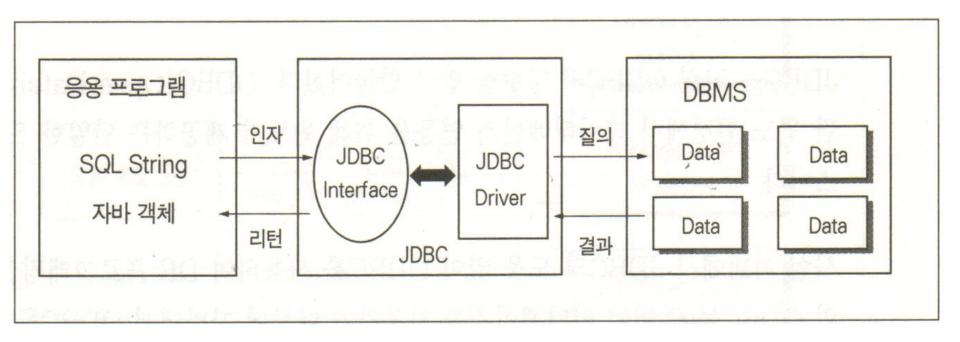

Database Programming(using JDBC)

Database Programming(using JDBC)

JDBC Programming Pattern

1. JDBC Driver Loading (thorws ClassNotFoundException)

```
String driver = "jdbc_driver_name";
Class.forName(driver);
```

```
new jdbc_driver_name();
```

DriverManager.registerDriver(new jdbc_driver_name());

prompt>java -Djdbc.drivers=jdbc_driver_name class_name

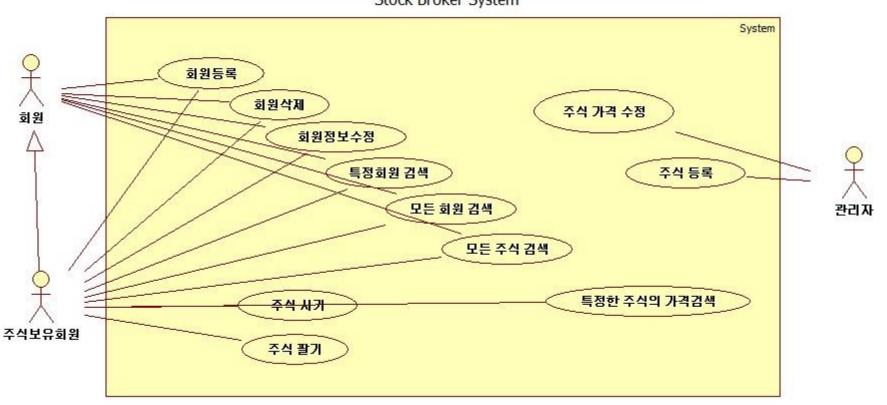

<jdbc_driver_name>

MySql: org.gjt.mm.mysql.Driver

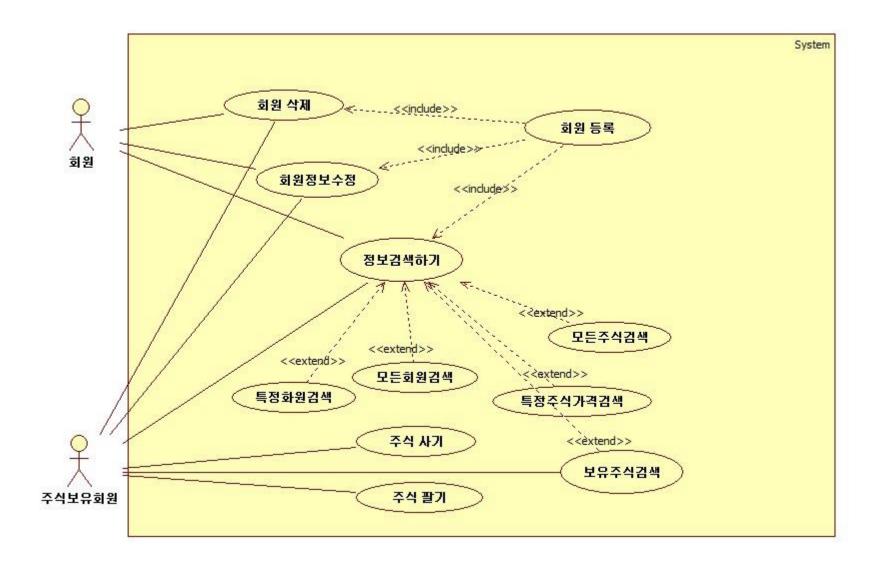

Oracle-thin: oracle.jdbc.driver.OracleDriver
Oracle-oci: oracle.jdbc.driver.OracleDriver
JDBC-ODBC: sun.jdbc.odbc.JdbcOdbcDriver
